

Technical Guide

Concetrated soluble source of potassium humate extracted from European Leonardite and iron chelate EDDHA. high purity & high solubility.

Is a mixture of Humate (Extracted from European Leonardite) and fulvate concetrated with iron EDDHA and Potassium Oxide in soluble way, specially made to be apply to the ground, through irrigation or traditional systems.

Composition:

Total Humics Extract: 40.00%

>Humic Acids: 32.50%

> Fulvic Acids: 7.50%

Iron (Fe) EDDHA: 3.00%

Potassium Oxide(K₂O): 4.60%

Solubility: 120 - 150g / Litre

Humic and Fulvics concetrates with Iron EDDHA and Potassium Oxide in soluble way, specially made to be apply to the ground, through anyone system of localized irrigation, or traditionnal.

Rate of Application

Crops	Dose	Application Stages
Vegetables	3 - 5 kg/Ha	All along the vegetative Cycle. Start one week after transplanting and split the total dose in 3 - 4 applications every 10 - 15 days.
Fruittress, Citrus	100 - 200 g/Tree	Since the growth starting to fruit swelling.
Vineyard	25 - 50 g/Plant	From the start of the Fertilization during 2 months, split the total dose in 2 - 3 applications every 2 week.
Subtropical Crops	3 - 5 kg /Ha	All along the vegetative cycle until the end.
Cutflower	3 - 5 kg /Ha	All the long the vegetative cycle.

Mixing Instructions

Add Hum 3 slowly under continours stirring with small quantity in enough water until reaching the total solubilization of the product. The mentioned indicated doses and application stages are subject to soil and climatic conditions, influence of previous crops and other specific conditions.

Incompatibilities

Humus 3 is compatible with the most of products of the market. Incase of doubt, please make a test before general treatment.

Cautions

- >When using product, do not eat, drink, neither smoke.
- >Avoid any contacts within eyes and skin.
- > Incase of contact with skin, rise immediately with plenty of water.

Storage: Keep the product in it's original packing tightly closed, protected from light and humidity and in a well - ventilated place.

Recommendations

The producer guarantees product's composition and content in it's original packing. Users and handlers of this product should assume the risks derived from factors not depending on the manufacturer. The manufacturer doesn't assume consequences resulting from storage or handling not in conformity with our recommendations.
