

AFRIZEB 75 WDG

MANCOZEB 750G/ KG

FRAC (Fungicide Resistance Action Committee) code: M03

Description: **AFRIZEB 75 WDG** (Mancozeb 750g/Kg) is a fungicide for control of Downy mildew on Roses.

Mixing instructions: Mixing instructions: Half fill the spray tank with water. Add the required amount of **AFRIZEB 75 WDG** then fill the water to the required level and agitate thoroughly to uniformity. Spray immediately after mixing.

ADVANTAGES OF AFRIZEB 75 WDG

1. Broad-spectrum protection. It provides broad-spectrum protection against a wide range of fungal pathogens.

2. Multi-site fungicide. It acts as a multi-site fungicide, making it highly effective and less prone to resistance development.

3. Excellent control of Oomycete diseases. It delivers excellent control of Oomycete diseases, especially those caused by Phytophthora species.

4. Good protective and curative reach. It gives both preventive and early-curative activity, helping control early infections and stopping new ones.

MANCOZEB 750G/ KG

Category	Information
Site of Action	Chemically reacts, non-specifically, with thiol groups on amino acids and enzymes, resulting in disruption of respiration and other cellular functions.
Spectrum and Route of Action	Contact fungicide with protective activity.
Uses (Crops & Diseases)	<p>Potatoes: Phytophthora infestans (late blight), Alternaria solani (early blight)</p> <p>Tomatoes: Phytophthora infestans (late blight), Alternaria solani (early blight)</p> <p>Vines (grapes): Plasmopara viticola (downy mildew), Guignardia bidwellii (black rot)</p> <p>Cucurbits: Pseudoperonospora cubensis (downy mildew)</p> <p>Apples: Venturia inaequalis (apple scab)</p> <p>Bananas: Mycosphaerella spp. (leaf spot / Sigatoka diseases)</p> <p>Citrus: Diaporthe citri (citrus melanose)</p>
