

CONTENDER 80 WDG

FOSETYL - ALUMINIUM 800G/KG

FRAC (Fungicide Resistance Action Committee) code: 33

Description: **EABCL CONTENDER 80 WDG** (Fosetyl Aluminium 800g/Kg) is a systemic fungicide with curative & preventive action for the control Downey mildew in Roses and Onions and Phytophthora rot in Pineapples.

Mixing instructions: Half fill the spray tank with water. Add the required amount of **EABCL CONTENDER 80 WDG** then fill the water to the required level and mix or agitate thoroughly to uniformity. The product must be sieved before spraying. Spray immediately after mixing.

ADVANTAGES OF CONTENDER 80 WDG

- 1. Preventive and curative.** Provides both preventive and curative action against Oomycete diseases.
- 2. Systemically.** Moves systemically (upward and downward) within the plant for thorough protection.
- 3. Strong curative action.** Can stop early infections shortly after they begin (mitosis-inhibiting activity).
- 4. Stimulates plant natural defenses** in addition to direct antifungal activity.
- 5. Offers long-lasting protection** due to its systemic redistribution.

AVAILABLE PACKS

50 ml, 100 ml, 250 ml,
500 ml, 1 L 5 L & 20 L

FOSETYL - ALUMINIUM 800G/ KG

Category	Information
Site of Action	Induction of host plant defence possibly resulting in inhibition of spore germination or by blocking development of mycelium and sporulation.
Spectrum and Route of Action	Systemic fungicide with protective activity, absorbed by leaves and roots, translocated both acropetally and basipetally in the phloem and xylem. Degrades to phosphonic acid (q.v.), the likely biologically active species.
Uses (Crops & Diseases)	<p>Vines (grapes): Plasmopara spp. (downy mildew), Phytophthora spp.</p> <p>Citrus: Phytophthora spp. (root rot, gummosis), bacterial diseases</p> <p>Pineapples: Phytophthora spp. (heart rot, root rot)</p> <p>Avocados: Phytophthora spp. (root rot), Pythium spp.</p> <p>Stone Fruit: Phytophthora spp. (collar rot, root rot), Pythium spp.</p> <p>Pome Fruit (apple, pear): Phytophthora spp. (crown rot), Pythium spp.</p> <p>Berries (strawberries, raspberries, blueberries): Phytophthora spp., Pythium spp., Bremia spp.</p> <p>Vegetables (lettuce, cucurbits, tomatoes, etc.): Bremia spp. (downy mildew), Phytophthora spp., Pythium spp.</p> <p>Hops: Pseudoperonospora humuli (downy mildew), Pythium spp.</p> <p>Ornamentals: Phytophthora, Pythium, and Bremia spp. (root rots, downy mildews)</p> <p>Turf: Pythium spp. (Pythium blight), Phytophthora spp.</p>
