

SPECTRA 80 WDG

CAPTAN 800G/KG

FRAC (Fungicide Resistance Action Committee) code: M04

Description: Spectra 80WDG (Captan 800g/Kg) is a multi-site contact fungicide for the control of Botrytis and Black spots on Roses.

Mixing instructions: Half fill the spray tank with water. Add the required amount of Spectra 80WDG then fill the water to the required level and mix or agitate thoroughly to uniformity. Spray immediately after mixing.

ADVANTAGES OF SPECTRA 80 WDG

1. Broad-spectrum disease control

– Effective against a wide range of fungal diseases on fruits, vegetables, and ornamentals.
2. Multi-site mode of action

– Acts on multiple sites within fungal cells, significantly reducing the risk of resistance development.
3. Excellent preventive protection

– Forms a protective barrier on the plant surface to prevent fungal spore germination and infection.
4. Low resistance risk

– Ideal for resistance management programs and tank-mixing or rotation with single-site fungicides.
5. Long-lasting residual activity

– Provides extended protection when applied before disease infection.

CAPTAN 800G/KG

Category	Information
Site of Action	Multiple sites within fungal cells (multi-site activity)
Spectrum and Route of Action	Contact (Protective). Captan remains on the plant surface, where it prevents fungal spores from germinating and infecting plant tissues. It is non-systemic and has no translaminar movement.
Uses (Crops & Diseases)	Crop: Target Diseases Apple: Apple scab, Black rot, Bitter rot Pear: Pear scab, Fruit rot Peach: Leaf curl (as part of a spray program), Brown rot, Scab Plum: Brown rot, Scab Cherry: Brown rot, Leaf spot Strawberry: Anthracnose, Leaf spot, Fruit rot (Botrytis suppression in some programs) Grapes: Black rot, Downy mildew* (suppression), Anthracnose Tomato Early blight, Anthracnose, Fruit rot Potato: Seed-piece rot, Black scurf (seed treatment), Rhizoctonia suppression Beans: Anthracnose, Leaf spots Cucurbits (Melon, Cucumber, Pumpkin): Anthracnose, Gummy stem blight, Leaf spots Ornamental Plants: Leaf spots, Blights, Damping-off Seed Treatment (Various Crops): Seed rot, Damping-off, Seedling blights caused by soil- and seed-borne fungi
