

VERMINENCE 50WG

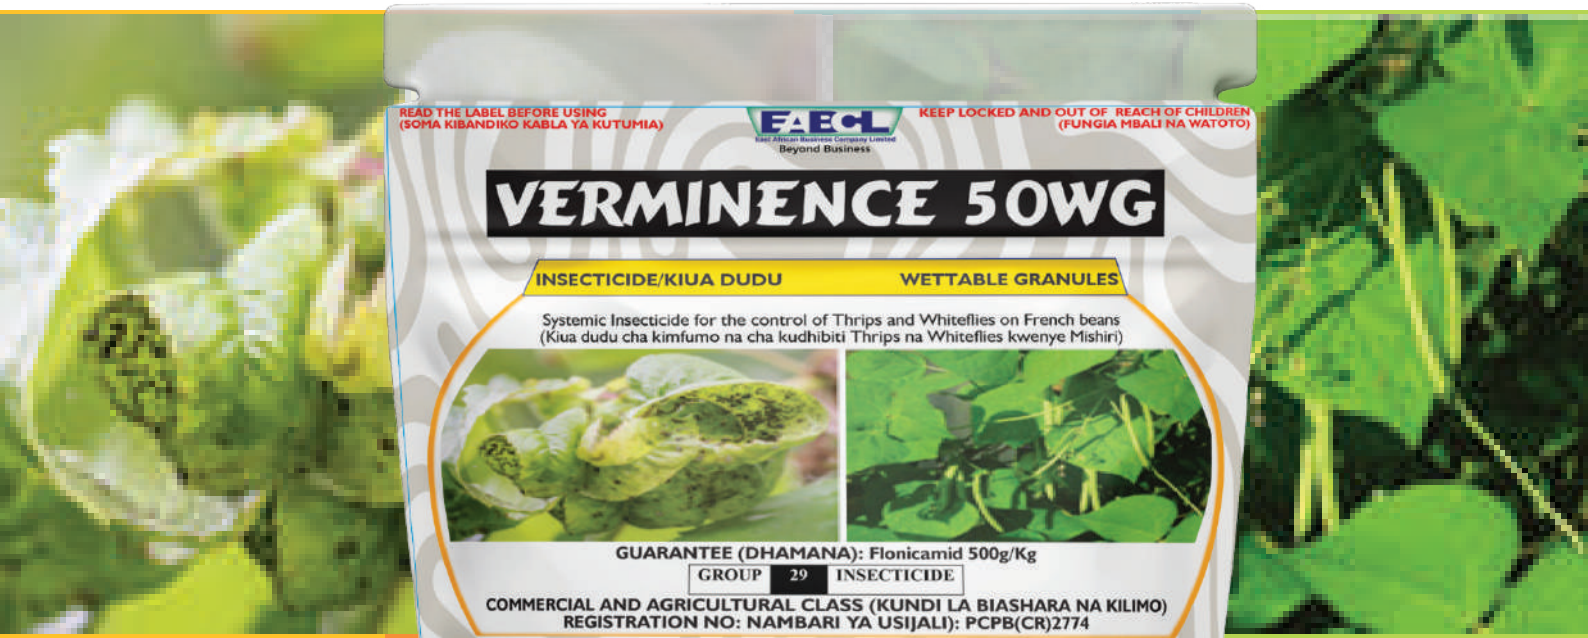

FLONICAMID 500G/KG

IRAC (Insecticide Resistance Action Committee) code:29

Description: **VERMINENCE 50WG** (Flonicamid 500g/Kg) is a broad-spectrum systemic insecticide for the control of Thrips and Whiteflies on French beans

Mixing instructions: Half fill the spray tank with water. Add the required amount of **VERMINENCE 50WG** then fill the water to the required level and mix or agitate thoroughly to uniformity. Spray immediately after mixing.

ADVANTAGES OF VERMINENCE 50WG

- 1. Rapid feeding cessation** – Insects stop feeding within a few hours, minimizing crop damage even before they die.
- 2. Excellent control of sucking pests** – Highly effective against aphids, whiteflies, leafhoppers, planthoppers, and other piercing-sucking insects.
- 3. Unique mode of action (IRAC 29)** – Helps manage insecticide resistance when rotated with products from other IRAC groups.
- 4. Long residual activity** – Provides extended protection, reducing the need for frequent applications.
- 5. Systemic and translaminar movement** – Moves within plant tissues to protect new growth and reaches pests feeding on the undersides of leaves.

FLONICAMID 500G/KG

Category	Information
Site of Action	Flonicamid interferes with the normal function of these sensory organs, causing insects to stop feeding rapidly. Although the pests may remain alive for a short period, they cease feeding almost immediately, preventing further crop damage before they eventually die.
Spectrum and Route of Action	Contact, systemic, and translaminar. It is absorbed by plant tissues, moves systemically (primarily upward through the xylem), penetrates leaf tissues (translaminar activity), and acts on pests that feed on treated plants.
Uses (Crops & Pests)	Tomato: Aphids, Whiteflies Capsicum (Sweet Pepper): Aphids, Whiteflies Chilli: Aphids, Thrips*, Whiteflies Cabbage: Aphids Kale: Aphids Broccoli: Aphids Cauliflower: Aphids Potato: Aphids Beans: Aphids, Whiteflies Peas: Aphids Cotton: Aphids, Whiteflies Citrus: Citrus Psyllids, Aphids Apple: Woolly Apple Aphids, Green Apple Aphids Pear: Pear Psyllids, Aphids Tea: Tea Aphids Ornamental Plants: Aphids, Whiteflies, Leafhoppers

AVAILABLE PACKS

50 ml, 100 ml, 250 ml, 500 ml, I L, 5 L & 20L
